Central Valuation October-2018

(Civil Engineering)

Central valuation is one of the important event in our system of Education. It involves two important tasks one is valuation of answer papers and another task is providing necessary Announcements for the Faculty members coming from different Institutions for valuation purpose. Here, in GPT, Uthangarai the first time Central Valuation is conducted for Civil Engineering papers of Oct 2018 for the period 03 to 06.12.18. During this process the following points are experienced by the Chief Examiners and Examiners.

The Principal and Chief Co-ordinator Madam Mrs. Helkizha Angela ^{Duraivas} has arranged this central valuation activities in a perfect and disciplined manner with effective co-ordination of Team members who involved in this duty.

We noticed that her leadership and kind hearted approach makes her Team Members to execute their duties assigned with one persons dedication and utmost sincerity.

We experience a very nice Hospitality from the Team Members and the amenities provided are excellent. Very High Comfort accommodation is provided for the inmates and the foods served are tasty with reasonable cost. The other amenities like drinking water and toilet facilities are also excellent.

As the institute is located 4 km away from Mad Town Umergaon with very less bus facilities in time and for this they have arranged private buses in time to transport the vacation staff in both ways.

In the Paper Correction process also all the activities were arranged systematically without even a single flaw and co-ordinated perfectly to complete the process effectively.

We know that in a Government Institute having lot of constraints and difficulties for providing amenities to the valuation staff. but, here being a very new Institute and doing First-time Central Valuation we find excellent arrangements in all aspects. At the end of this important event it is our duty to express our sincere thanks to the Principal Madam and other Team Members who involved in this event utmost dedication and sincerity and made it successful completion in all aspects.

Chief Examiners.
